

Kea Survey

WE NEED YOU!!

Photo: Corey Mosen

- 1. Do you or your family and friends visit outdoor locations in the South Island during winter?*
- 2. Are you able to make simple recordings on any Saturday or Sunday afternoons in July?*
- 3. Do you know of anyone else who may be interested in helping out?*

If you answered “yes” to any of these 3 questions, you may want to be included in this years winter kea count.

What would you have to do?

You do not need to be a scientist or an expert - you would simply be required to record maximum numbers of kea you see during an afternoon. If you do not see any kea, then 0 kea will be recorded.

Where?

This would be at one or more sites of your choice which you are likely to visit on any weekends during July.

When?

You can conduct your counts anytime between 12 noon – 4pm, on as many (or as few) Saturday/s and Sunday/s as you choose throughout July.

Yes! I am interested in helping out!

Then please contact us directly at the Kea Conservation Trust for more information and recording sheets:
